

CUSTOM HEIGHT CAN DEPALLETZER

The Ska Fabricating™ Custom Height Can Depalletizer is designed for canners or breweries with space restrictions. It is designed for half pallets of aluminum, plastic or composite materials, with a mobile option available.

STANDARD FEATURES

- Capable of depalletizing multiple sized packages of aluminum, plastic or composite materials
- Speeds from 10 CPM up to 300 CPM with proper accumulation
- Loads with a slim profile pallet jack or forklift
- Numerous configuration options available to best fit your space
- Minimal air consumption (<1 CFM @15 PSI) (<30L/MIN @ 1.1 BAR)
- Fully automated once pallet is inserted into the machine & the straps & tier frame are removed
- Automated tier sheet removal
- Custom height available for low clearance applications

OPTIONAL FEATURES

- Mobility Package
- 110 Volt power
- Custom detachable conveyor
- CE Certification
