

TWIST RINSE CAN RINSER

Ska Fabricating's™ Twist Rinse Cage integrates with our Can-i-Bus depalletizer and all other canning lines running between 20-100 CPM. Standard and custom sizes are available. Rinse cage can be mounted straight off the conveyor or off the side to accommodate tight spaces.

STANDARD FEATURES:

- Made from 1/4" Stainless Rod and Stainless Flat Stock
- Stainless Enclosure with easy access to the cage and water nozzles
- Quick and easy changeover for different can sizes
- May be set up with a chemical supply or the preferred water source
